EDUCATION

NATIONAL UNIVERSITY OF SINGAPORE

Aug 2023 - May 2027

Bachelor of Science in Business Analytics (Honors), Specialization in Finance & Minor in Economics

- Grade Point Average: 4.71/5.00
- Awards: Top Student award for Data Management and Visualisation out of 331 students
- Relevant Coursework: Data Structures & Algorithms, Data Management & Visualisation, Data Mining, Linear Algebra, Probability & Statistics, Information Technologies in Financial Services

EXPERIENCE

The Coca-Cola Company | AI Engineer Intern

Jan 2026 - Jun 2026

- Built 4 multi-agent LLM pipelines with LangGraph, Azure SQL and Blob Storage to analyse metric performance and project reports to surface recommendations for global leadership, reducing meeting preparation time by 7 hours
- Architected a multi-agent RCA chatbot using LangGraph and RAG to streamline root cause analysis investigations, cutting diagnostic time from 6 hours to 1 hour
- Built a semantic retrieval platform using SBERT, FAISS indexing and Qwen 2.5, shortening maintenance information retrieval time by 24%
- Designed a reusable Azure OpenAI agent framework with a custom tool registry and base agent class, adopted across 10+ agents and 2 production use cases

Synthesis | Data Science Intern

May 2025 - Aug 2025

- Built an end-to-end GCP pipeline with BigQuery, Vertex AI batch inference and Pandas to process YouTube metadata for downstream clustering and network analysis
- Owned a geospatial data pipeline to extract and rank optimal F&B partners across Japan for a spirits client in a team of 4
- Optimized a geospatial data extraction pipeline for geosegmentation client projects using Geopandas and Google Maps Grid Search API, improving retrieval coverage by 15% and cutting query time by 25%

National University of Singapore | Teaching Assistant (Data Visualization & Management)

Jan 2025 - May 2025

- Mentored 30 undergraduates on SQL, data analysis and building Tableau dashboards, with emphasis on translating data insights into business recommendations
- Led tutorials on data storytelling and data visualization, achieving a feedback score of 4.6/5.0

PROJECTS

Graham | Group Project

Apr 2026 - May 2026

- Designed an LLM pipeline parsing 10-K filings and live financial data to generate moat analysis, bull/bear cases and DCF assumptions for any publicly listed stock
- Built a stock screening and portfolio optimisation layer using GPT-4o-mini to recommend comparable peers and support relative valuation analysis

CO-CURRICULAR ACTIVITIES

NUS Alumni Ventures | Innovations and Insights Associate

Sep 2024 - Aug 2025

- Pioneered a collaboration with the SMU AI club to organise an expert panel discussion for ~ 50 participants

Tembusu College Ultimate Frisbee | Team Member

Aug 2024 - May 2025

- Represented Tembusu College in the NUS inter-college games as a member of the Ultimate Frisbee team

TECHNICAL SKILLS & INTERESTS

- **Programming Languages:** Python (Pandas, NumPy, scikit-learn), SQL, JavaScript
- **Data Science & AI:** LLM APIs (OpenAI, Claude), Machine Learning, Exploratory Data Analysis, Statistical Modelling, NLP, LangGraph
- **Data Engineering & Platforms:** Databricks, Azure, Google BigQuery, Google Cloud Platform, Git
- **Interests & Hobbies:** Football, Hiking, Pickleball, Equity Research (US Markets)
